WEBINAR WOMEN SERIES:

WOMEN IN CULTURE, MUSIC, ART, FASHION AND SOCIETY

THEMATIC FRAME:

THREE DIMENSIONAL- DIALOGUE WITH ITS SOCIO-CULTURAL INTERPRETATIONS AND CHALLENGES.

DIALOGUE WITH:

BADRA CHERFI

FASHION DESIGNER,
COSTUME DESIGN
ALGERIA

From teaching to fashion, Badra Cherfi firmly believes her creations are also teaching people about their forgotten stories. Multicultural, passionate about arts and history, she believes her design philosophy is an extension of her identity. Her creations build bridges between ancestral Berber traditions and a resolutely modern vision of fashion and of today's society, allowing women to express themselves rather than be exposed to designs inspired by men. Her creations have inspired the latest short film Coral Clear that has received many prestigious awards including Cannes World Film Festival. By using her Amazigh heritage, the designer manages to translate traditional North African fashions into luxurious evening and bridal wear.
