

## MISSION

Iskra Avtoelektrika is a global supplier of starter motors and generators for internal combustion engines, electric drives and mechatronic systems and parts. Together with these product lines, we also design and manufacture flexible manufacturing systems.

Iskra Avtoelektrika develops, manufactures and sells on a global basis, through its own manufacturing and distribution network, which, apart from providing support to its industrial customers, also offers a broad range of aftermarket products.

Iskra Avtoelektrika is known for its innovation, high quality products, strong marketing and development support to its customers. Its acknowledged success is based on the competence of its people and on the flexibility of its processes.
