

I have chosen a reliable partner.

I know why.

Life tends to surprise us with new and new challenges every day. However, it's easier to face them, if we have a solid, reliable, and expert financial institution at our side.

NLB Group is the biggest Slovenian international financial institution, which uses experiences, knowledge, awareness of local markets and habits to successfully help its customers on their way towards business and personal accomplishments. Banking, leasing, commercial finances,

insurance operations, and asset management are only some services offered by the **NLB Group** which guarantee stability, safety, reliability, and partnership, which is already appreciated by satisfied customers, who are being provided for by experts on eighteen markets in 62 members of the **NLB Group**. Our size and power have been created by individuals, who are pleased with our work. We are aware of that, and this is where we lay foundations for our future development. Because we know why.
